MASTER SERVICES AGREEMENT

Effective Date: 15 January 2026 · Agreement Reference: MSA-2026-0114

This **Master Services Agreement** (the "Agreement") is entered into between **Société Générale S.A.**, having its registered office at 29 Boulevard Haussmann, 75009 Paris, France (the "Client"), and **Acme Cloud Services Ltd**, having its registered office at 14 Finsbury Square, London EC2A 1AH, United Kingdom (the "Vendor").

1. Scope of Services

Vendor shall provide cloud-based document storage and processing services to Client, including secure ingestion, indexing, search, and retrieval of structured and unstructured business records, in accordance with the technical specification attached as Schedule A.

2. Data Access and Processing

Vendor is granted **Read and Write access** to the following data classes: (i) **Personally Identifiable Information (PII)** of Client employees and customers; (ii) **Financial transaction records**; and (iii) Internal operational metadata. Vendor shall not access, replicate, or process any data outside the scope of Schedule A without prior written consent. All processing shall occur exclusively within EU/EEA data centres.

Vendor acts as a Data Processor under **GDPR Article 28** and shall execute the Data Processing Agreement attached as Schedule B prior to any production data ingestion.

3. Compliance Obligations

Vendor warrants that throughout the Term it shall maintain valid and current certifications for: **SOC 2 Type II** (audited annually); **ISO/IEC 27001:2022**; and **PCI-DSS v4.0** where payment-card data is in scope. Vendor shall provide Client with the most recent audit report within ten (10) business days of request. Vendor shall also comply with applicable provisions of **GDPR (Regulation EU 2016/679)**, **NIST SP 800-53 Rev. 5 (SA-9 External Information System Services)**, and **SOX Section 404** as it relates to Client's internal control attestation.

4. Service Level Agreement

Vendor guarantees a monthly uptime of **99.95%**, measured calendar-monthly and excluding scheduled maintenance windows announced at least seventy-two (72) hours in advance. Critical incident response shall commence within fifteen (15) minutes of detection; resolution targets are four (4) hours for Severity-1 incidents and twenty-four (24) hours for Severity-2 incidents. Service credits equal to ten percent (10%) of monthly fees shall accrue for each one-percent (1%) shortfall below the uptime commitment.

5. Security Incident and Breach Notification

Vendor shall notify Client of any actual or reasonably suspected Security Incident without undue delay and in any event within **twenty-four (24) hours** of discovery, including (i) the nature and scope of the incident, (ii) data classes affected, (iii) remediation actions taken, and (iv) Vendor's point-of-contact for ongoing coordination. This notification shall enable Client to discharge its own obligations under **GDPR Article 33** (notification to the supervisory authority within 72 hours).

6. Term and Renewal

The initial Term commences on 15 January 2026 and shall continue for a period of **twenty-four (24) months**, expiring on 14 January 2028. The Agreement shall **auto-renew** for successive twelve (12) month periods unless either party provides written notice of non-renewal at least ninety (90) days prior to the renewal date.

7. Termination

Either party may terminate this Agreement for material breach upon thirty (30) days written notice if the breaching party fails to cure within such period. Client may terminate immediately, without cure period and without liability, in the event of: (a) Vendor's loss of any required compliance certification (SOC 2, ISO 27001, PCI-DSS); (b) a confirmed Security Incident materially affecting Client data; or (c) Vendor's insolvency or change of control to a competitor or sanctioned entity. Upon termination, Vendor shall return or, at Client's election, securely destroy all Client data within thirty (30) days and provide written certification of destruction.

8. Indemnification

Vendor shall indemnify and hold Client harmless against any third-party claim arising from Vendor's breach of Sections 2, 3, or 5, up to an aggregate cap of five million euros (€5,000,000), provided such cap shall not apply to losses arising from gross negligence, wilful misconduct, or breach of confidentiality.
